

AIM AND TASKS OF THE SCIENTIFIC PUBLICATION

The aim of the scientific publication “Bulletin of Postgraduate Education: Collection of scientific papers. Series 'Social and Behavioral Sciences; Management and Administration'” is to publish the results of fundamental and applied scientific research that reflect current trends in the development of social and behavioral sciences, economics, international economic relations, as well as public management and administration. The publication is aimed at highlighting current problems of economic transformations, business development, management practices and public administration, contains original, previously unpublished materials (theoretical generalizations, empirical studies, analytical reviews, etc.), which are characterized by scientific novelty and practical significance.

The collection of scientific papers serves as a public platform for the exchange of knowledge, ideas and research results between scientists, teachers, candidates for the degrees of Doctor of Philosophy and Doctor of Science, representatives of state authorities, the business environment and civil society, promotes the development of interdisciplinary dialogue within the cluster "Economic Transformations, Business and Administration" (specialties: C1 - Economics and International Economic Relations; D4 - Public Management and Administration).

Articles accepted for publication are published in Ukrainian and English.

The "Bulletin of Postgraduate Education: Collection of Scientific Papers. Series "Social and Behavioral Sciences; Management and Administration"" complies with the requirements for professional scientific publications of category "B", ensures the approval of the results of dissertation research, promotes the development of scientific schools and the training of scientific and scientific-pedagogical personnel in the relevant fields of knowledge.
