

## AIMS AND SCOPE

**«Bulletin of Postgraduate Education» (Management and Administration Series)** as a professional publication of scientific papers is an authoritative voice in the world of public administration and management in Ukraine.

The publication aims to provide opportunities for scientific and educational community to highlight the results of latest scientific research on:

- Public administration and management,
- Professional training of specialists contributing to the development of postgraduate education in Ukraine;
- Quality improvement of education and best educational practices.

The publication is a platform for discussion and approbation of theoretical and practical scientific and methodological explorations as well as the setting, the course and the results of educational experiments.

The Bulletin is intended for educational researchers and practical educators, heads of institutions of higher education, methodologists, professors and students of institutions of postgraduate education.
